

I am the founder and CEO of Blacknight and have been heavily involved with internet policy both in Ireland and internationally for the past 20 years. I currently serve on the .ie PAC, as well as the .eu Registrar Advisory Board and the .us Stakeholder Council.

The PAC has been working well over the past decade and has evolved to be an integral part of the way the .ie domain policy evolves.

The landscape we all operate in is in flux and I expect there to be an increased emphasis on various forms of regulation both from our own government as well as from the EU. The most obvious one right now is NIS2, but we are all still dealing with others such as DORA, GDPR etc.,

It is vital that Registrars are represented on the PAC by people who not only have a strong voice, but the knowledge to back up their positions.

I believe that I can be that voice for you all, which is why I am asking for your vote. If anyone would like to discuss the election or the PAC please contact me directly:
